

War in Ukraine: Support by EL Members to society

EL Members are instrumental in supporting society in times of crisis. Since Russia's invasion of Ukraine at the end of February 2022, many Members have taken action and showed their solidarity with the people of Ukraine. Lotteries continue to uphold their historic support and benefit to society in times of need.

Austria

Austrian Lotteries

- The focus of Austrian Lotteries' economic activities – in addition to providing high-quality lottery games – is on the well-being of Austria and its population. This forms the basis for its sponsoring activities, especially in social and humanitarian areas. In certain situations, however, that simply is not enough. Sometimes its socio-political responsibility cannot just be limited to Austria but must include a perspective beyond our borders.
- The conflict between Russia and Ukraine and its catastrophic humanitarian consequences is one such situation. In a quick, unbureaucratic initial relief action, the Casinos Austria and Austrian Lotteries Group donated 75,000 euros to the "Nachbar in Not" ("Neighbour in Need") charity organisation.
- The Corporate Volunteering Programme, in which employees could use working hours to contribute to social commitment, was also expanded: staff members will now also do volunteer work in connection with humanitarian aid for people in Ukraine and Ukrainian refugees.
- Staff members organised a collection of necessary medical goods to support Healthcare in Ukraine.
- No bets are accepted anymore on Russian and Belorussian teams and leagues.
- The Easter week in 2022 at Austrian Lotteries was dedicated to the humanitarian "Nachbar in Not" (Neighbours in Need – Help for Ukraine). Austrian Lotteries dedicated all draws to help Ukraine. Austrian Lotteries donated 5 cents to Neighbours in Need for every tip placed between Monday, 11 April, and Easter Sunday, 17 April 2022. This donation applied to all Austrian Lotteries betting slip games, i.e. Lotto, Joker, EuroMillions, Toto, Bingo, TopTipp, Zahlenlotto and Lucky Day. Based on an average game participation, an amount of at least 700,000 euros is expected to benefit Ukraine, with a favourable jackpot development, it could be significantly more.
