

THE EUROPEAN  
LOTTERIES  
FOR THE BENEFIT OF SOCIETY

SUSTAINABILITY-RESPONSIBLE GAMING SEMINAR

# SHAPING THE FUTURE OF LOTTERIES

DUBLIN, IRELAND

SEPTEMBER 25 – 27, 2024

Hosted by

## BREAKOUT SESSIONS – September 26

Each breakout session will take the form of an interactive session with presentations of best practices, Q&A and discussions.

- **Protecting minors and mystery shopping:** Delve into the critical topic of safeguarding minors within the realm of lottery and gaming. Explore strategies to prevent underage participation, educate stakeholders on responsible gaming practices, and ensure compliance with regulations. Let's work together to create a safer environment for our youth in the gaming sector.
- **CSRD & Double Materiality:** Join us as we explore the landscape of Corporate Social Responsibility Disclosure (CSRD). Learn how companies communicate their social and environmental impacts, the importance of transparency, and emerging trends in Sustainability reporting. Gain insights into how CSRD shapes stakeholder perceptions and drives sustainable business practices. You will also delve into the concept of double materiality and its significance in today's business landscape. Explore how organizations are navigating financial risks alongside Environmental, Social, and Governance (ESG) considerations. Discover strategies for integrating double materiality into corporate decision-making and reporting frameworks, driving long-term value creation and resilience.
- **Identification at Retail:** Discover a unique and comprehensive responsible gambling framework based on customer identification. Identifying players in both retail and digital channels and in all product verticals enable a responsible gambling environment with maximum annual loss limit covering all playing, several self-exclusion options and care model based on player data and AI.
- **Environmental Initiative – Setting Targets (SBTi):** As part of the EL Environmental Initiative Support Programme, DigitalRG will show you how lotteries can lead the way in environmental sustainability through targeted goal-setting aligned with the Science Based Targets initiative (SBTi). Learn about the latest trends, challenges, and best practices in setting science-based targets to reduce carbon emissions and mitigate climate change. Join us to discover how the lottery sector can drive positive environmental impact and contribute to a sustainable future.
