FOR THE BENEFIT OF SOCIETY

The Support Programme for Lotteries

Origin

In 2023, it appeared that, more than making commitments for the environment, most lotteries need HELP in achieving these goals efficiently, thus

the EL Support Programme for Lotteries

- ❖ Available only to Lotteries who have already committed online

Statement from the EL SRG Working Group

" Since its launch in 2022, the EL Environmental Initiative has marked a significant step forward in embedding environmental sustainability across the lottery sector.

The results speak for themselves: an increasing number of Members have signed the commitments, implemented responsible practices, and contributed to positioning the sector as a proactive and credible actor in the transition to a more sustainable future."

The EL SRG Working Group – May 2025

- The Support Programme for Lotteries
- Next steps

If your Lottery doesn't need the Support Package, inform us on whether

A

You already have one or both commitments in place (by signing the initiative accordingly)

B

You are willing to commit on one or both commitments, but don't need the EL package and will have achieved all objectives by June 2025

In any case, please contact Mélissa Jacquério (melissa.jacquerio@european-lotteries.org) to inform EL about your current status and obtain more information.
