

PRESS RELEASE

Paris, 7th December 2017

GLMS enters a new era with the launch of the New Monitoring System powered by TOXODDS and the opening of New Operational Hub in Hong Kong.

Paris, 7 December 2017, The Global Lottery Monitoring System (GLMS) announced today the launch of a **new cooperation with TOXODDS**. The operations consolidation through the acquisition of an analytical tool with customized functionalities able to **prevent, detect and manage** all possible **irregular and suspicious betting patterns** was one of the **strategic priorities** of the new GLMS Executive Committee and the new GLMS system powered by TOXODDS will ensure high efficiency in the significant work of GLMS towards the monitoring of betting patterns.

The announcement was made as part of a **2-day workshop** that GLMS organised for its Members coming from **27 countries** in Paris in order to efficiently train its Members' data scientists and traders on the new system and ensure their full engagement and competent contribution to the new GLMS platform. On this development, **GLMS President, Ludovico Calvi** commented: *"The new GLMS system powered by TOXODDS will enhance our operational efficiency and will add value to our well-established operational expertise. I am pleased also by the enthusiasm of our Members to familiarise themselves with the new system and contribute to the success of our global commitment in the fight against Match Fixing, in the highest interest of the credibility of sport"*.

At the same time, GLMS President also announced the launch of the **new operational hub in Hong Kong**, which makes the GLMS monitoring operations really global. The new operational hub which is the first of a series of hubs to be launched in other parts of the world, will further contribute to the accomplishment of the key mission for GLMS, and will make it ever more **credible and effective vs all stakeholders**, including the Council of Europe, the Group of Copenhagen, the Olympic and sport movement and the law enforcement authorities worldwide.

Ludovico Calvi, stated: *"With the launch of the new operational hub in Hong Kong, GLMS becomes the first and only monitoring system with true global operations and local expertise, comprising sports betting operators from all parts of the globe. We will sustain and increase our determination to close partnerships with public and private stakeholders worldwide in an effort to effectively contribute to the on-going fight against match-fixing, favouring the expansion of our hubs in other continents, leveraging on local expertise and intelligence gathering and contributing to the establishment – in cooperation with the Olympic and sport movement, the Council of Europe, Law Enforcement Agencies – of a general culture of Sport Integrity"*.

About GLMS

GLMS is the state lotteries' mutualized monitoring system on sports betting. It aims at detecting and analyzing suspicious betting activities that could question the integrity of a sport competition. Building on six years of experience with the establishment in 2009 of ELMS with European Lotteries, GLMS went global in January 2015 extending the network to other continents. GLMS facilitates the sharing of sports betting information as part of the collective efforts of its members in ensuring sports integrity globally, and is dedicated to effective cooperation with all key stakeholders: regulators, law enforcement authorities, sports organizations. GLMS comprises 29 Members from all over the globe.
